June 2020

Dear Prayer Partner :

Greetings to you from Bangladesh. I am one month late to write my prayer letter because of Covid-19. Many things changes because of this virus. Our orphanage is closed. Most of the Kids I have sent to the Hills where they are from. All the educational intuitions are closed by the government. No school will be open until September.

Our office is located opposite to the big medical college Hospital. There are many medical clinics around our office area. Our area is locked down and declared Red-zone area. It means many COVID positive around us. It is not safe to be around this area. Most of the churches are still closed or only few people come to the church.

I was at my home. We have a small church may be 15 people only. The Lord gave me opportunity to teach every day to this small church. Many people around the world was not able to go to the church because of this COVID-19 virus. Bengali people from the U.S.A, Canada, UK, Germany, France, and other countries of the world requested me to preach by Zoom. Last month I spoke over a dozen of time to the Bengali people in the foreign land. One person from the church arranged this technology of which I am grateful to the Lord. Most of the time I have to speak after 10pm. (our time). We have to cancelled Bible college classes twice. All the transportation Bus, Train were closed. Social distance does not apply in this country, no one follow social distance. It was mandatory to put musk but again no body care. Number of death increasing everyday in this country.

Couple of weeks ago we had a cyclone. It damaged many houses. Two of my pastor house was damaged. Some people from the U.S.A. sent some money to repair it. The Lord is good to us. His promises encourage us. He will never leave nor forsake us.

Thank you so much for your prayer and faithful support to our ministry.

In Christ
