March 2021

Dear Prayer Partner:

Greetings to you from Bangladesh. The second wave of COVID 19 is going on in Bangladesh. More people are admitted in the Hospital but the Lord is protecting us from all these situations. Last week I traveled to our different churches and spoke at Jessore Church. One young boy accepted the Lord Jesus Christ as his personal Savior. We had a Bible College class at Natore Bapt-Mid Mission Hospital. Dr. Tomioka and I taught at the class. We had 23 students.

Jessore Church Revival Meeting

Natore Bible College Class

Bible College PE Class

In two weeks there will be again Bible College class at Natore. If the Lord is willing we are expecting eight students will graduate in June from the Bible College class. It is difficult for a foreign professor to come to Bangladesh in this situation.

Our orphan kids are eager to come to Chittagong but because of the government restriction we can not bring them now. Government had a plan to open the school in March but because the second wave of COVID 19 school may not open now. I want to thank you for your prayer and support for our ministry.

In Christ
